Ojhaaaaaaaaa

bbbb

aaaaa

```
exports.raw = function (req, res, next) {
  Post.findOne({ titleUrl: req.params.postTitle }).populate('comments').run(function (err, post) {
    if (err) return next(err);
    if (!post) return next(); // 404

    var name = req.params.name;
    // var fileName = checkPostSecurity(post, function (err) {
    //   if (err) return next(err);
    //   fs.readFile(fileName, 'utf8', function (err, file) {
    if (err) return next(err);
    post.content = helpers.markdown(post.content, true);
    var startSearch = '<input type="hidden" value="[raw=' + name + ']" />',
        endSearch = '<input type="hidden" value="[raw=' + name + ']" />',
        start = post.content.indexOf(startSearch),
        end = post.content.indexOf(endSearch),
        content = post.content.substring(start + startSearch.length, end);

    // no raw files found in post, try to find some in comments
    if (start === -1 || end === -1) {
      var length = post.comments.length;
      post.comments.forEach(function (comment) {
        comment.text = helpers.markdown(comment.text, true);
        start = comment.text.indexOf(startSearch);
        end = comment.text.indexOf(endSearch);
        content = comment.text.substring(start + startSearch.length, end);

        // found raw file in comment - respond and exit
        if (start !== -1 || end !== -1) {
          // stop here
          return res.send(content, { 'Content-Type': 'text/plain' });
        } else if (--length === 0) { // no raw files found in comments
          return next(); // 404
        }
      });
    } else { // found raw file
      res.send(content, { 'Content-Type': 'text/plain' });
    }
  });
};
```
